Press Release

Accelero S1 Rev. 2

The award winning passive VGA cooler extends its compatibility to the latest graphic cards

Pfäffikon/ Switzerland, 21.12.2007. The Swiss cooling solution provider – ARCTIC COOLING introduces Accelero S1 Rev. 2 – a new revision of the award winning passive VGA cooler. The Accelero S1 Rev. 2 dramatically extends the compatibility to many of the latest graphic cards. It supports high-end to main stream graphic cards including the latest hot selling Radeon HD 3870, 3850 , GeForce 8800GTS (G92) and 8800GT.

The Accelero S1 Rev. 2 now comes with a new flexible mounting mechanism, multiple screw hole sets and modifications to the heatpipes enabling it to fit a wider range of leading graphic cards. As a result more gamers can benefit from adopting the Accelero S1 Rev. 2 which dramatically improves their gaming experience.

Radically new 'noise free' experience for serious gamers

Accelero S1 Rev. 2 is a high performance passive cooler featuring 4 heatpipes connected via an extra large surface area. It effectively removes a great deal of heat from the graphic cards and keeps the components cool. Thanks to the effective design, Accelero S1 rev. 2 outperforms many active cooling solutions. Accelero S1 Rev. 2 creates a true industry leading zero noise cooling solution for all enthusiast gamers.

Accelero S1 Rev. 2 is compatible with ATI Radeon HD 3870, 3850, 2600, 2400, X1950, X1900, X1800, X1650, X1600, X1550, X1300 and nVIDIA GeForce 8800GTS (G92), 8800GT, 8600, 8500, 8400, 7950GT, 7900, 7800, 7600, 7300, 6800, 6600 graphic card series.

“Most gamers can immediately benefit from this high performance cooler.” said Patrick Chung, Marketing Manager, “Delivering better performance than the standard coolers and without any fan noise, Accelero S1 Rev. 2 simply provides an all-round passive solution that achieves the best cooling performance.”

Accelero S1 Rev. 2 can still be paired with the Turbo Module – the twin fans add-on, which further increases the potential power of Accelero S1 Rev. 2 with enhanced cooling performance under extremely quiet operation. Turbo Module helps boost up the GPU and memory overclockability, squeezing more graphic performance than ever before.

Accelero S1 Rev. 2 will be available by Feb 2008. The MSRP is USD 28.95 and Euro 19,95 (excl VAT).
