Accelero L2 Pro **Quiet Cooling Solution for Mainstream Graphics Cards**

(Pfäffikon/ Switzerland, 30 April 2009) Swiss cooling solutions provider ARCTIC COOLING today announced the launch of the **Accelero L2 Pro**. With a multi-compatible mounting system, this new exceptional VGA cooler offers excellent cooling for both nVIDIA and ATI graphics cards.

Excellent cooling for a wide range of VGA boards

Featuring one 92mm PWM fan that runs from 900 to 2,000 RPM, the **Accelero L2 Pro** optimises airflow to 27 CFM and achieves up to 100 Watts cooling capacity. The optimised heatsink and the pre-applied thermal compound MX-2 guarantee excellent heat dissipation from the core.

The flexible mounting is designed for fitting a wide range of nVIDIA and ATI cards – from GeForce FX5700 to the 9800 series; and Radeon X1300 to HD4850 series. The **Accelero L2 Pro** is surely a perfect cooling solution for these graphics cards at a very competitive price.

The Art of Silence

The **Accelero L2 Pro** also excels in noise management. The 92mm fan is equipped with low noise impeller and installed in a patented fan holder in order to eliminate buzzing sounds. Thanks to this excellent acoustic design, the **Accelero L2 Pro** remains extremely quiet (only 0.4 Sone) even at full speed.

The **Accelero L2 Pro** comes with a 6-year limited warranty. It will be available in June 2009. The MSRP is US\$16.00 and 12.50€ (excl. VAT).

Compatibility

ATI Radeon series: HD 4850, 4830, 4670, 4650, 4550, 3870, 3850, 3650, 3470, 3450, 2600, 2400
X1950, X1900, X1800, X1600, X1550, X1300

nVIDIA GeForce series: 9800, 9600, 9500, 9400, 8800, 8600, 8500, 7950, 7900, 7800, 7600, 7300, 6800,
6600, FX5950, FX5900, FX5800, FX5700

Dimensions	119 L x 94 W x 51 H (mm)
Fan	92 mm
Fan speed	900 – 2,000 RPM (Controlled by PWM)
Air Flow	27 CFM / 46 m ³ /h
Max cooling capacity	100 Watts
Weight	250g

About ARCTIC COOLING

ARCTIC COOLING Switzerland AG is the trusted leader in providing low noise thermal cooling solutions for PC. Its diversified product lines include CPU cooler, VGA cooler, case fan, PC case and PSU. The innovative engineering team excels in systematic noise reduction, heatsink development, customization of thermal solutions, low noise fan design, PC case and PSU elaboration. Headquartered in Pfäffikon, Switzerland, ARCTIC COOLING operates international offices in Hong Kong and the US providing local shipping, customer service and sales support for their regions.
