Fluid Dynamic Bearing

Cooling performance at nVIDIA GeForce GTX 285:

"The cooling performance is simply outstanding whilst the noise of the three PWM-Fans is incredibly low." – *Spielesuechtig.de, Germany*

Noise level at nVIDIA GeForce GTX 285:

"ARCTIC COOLING offer an excellent solution for the latest GeForce graphics card." – *Rexware, France*

The noise level is measured in Sone (loudness) instead of dB (sound intensity). The loudness depends upon ears response curves and tells you exactly how bothering a certain noise is. All brands and products are registered trademarks of their registered companies.
